

ARE YOU 6.x READY?

We Are ...

LEIDOS HEALTH IS CERTIFIED AS A MEDITECH 6.x READY CONSULTING FIRM

Based on our many years of successful MEDITECH implementation experience, our MEDITECH system and healthcare expertise, and our ability to provide READY teams, Leidos Health has been selected by MEDITECH to provide consulting services for their 6.x READY (Rapid Adoption, Evidence-Based, Advanced Workflows, Dedicated Team and Your Success) implementation methodology.

We have a successful track record working with MEDITECH, our customers, and other consulting organizations and bring expertise and advisory services that will add value to your organization.

READY to Help You Maximize the Value of Your 6.x System

- ▶ We draw on our extensive experience delivering more than 1,500 MEDITECH engagements to more than 175 provider organizations from small community hospitals to large IDNs
- ▶ Our READY approach is designed to provide transparency and collaboration through every phase of the implementation

READY to Provide the Subject Matter Expertise You Need

- ▶ We have more than 107 MEDITECH consultants with an average of 20 years of healthcare and healthcare IT experience
- ▶ Our consultant team has proven 6.x experience and expertise across clinical, financial and technical areas
- ▶ We can scale to meet your unique needs and have the size to support multiple READY implementations

READY to Advance Project Management Support

- ▶ We have aligned MEDITECH's tools and methodology with our own project management methodology and best practices to create a master project plan with detailed application project plans
- ▶ Our methodology includes documents and deliverables for every phase of the implementation

READY to Accelerate Clinician and Physician Adoption

- ▶ We provide physician and clinician consultants who understand workflows and know how to get the most from MEDITECH software
- ▶ We leverage the experience and tools of our dedicated go-live practice to develop effective training that greatly improves CPOE and PDoc adoption

READY to Enable Leadership Engagement

- ▶ We offer a Foundational Leadership Workshop to educate and gain leadership consensus on the foundational implementation success factors
- ▶ We keep leadership informed and engaged through our exclusive strategy management tool that provides customized implementation roadmaps and executive status dashboards
- ▶ Leadership can have real time performance management, including views of critical milestone activities and a risk management matrix

We're READY for You!

We're committed to your success. Contact us today to learn more about how Leidos Health can help your team improve efficiency and achieve optimal outcomes with your 6.x READY implementation.
