

Allscripts® Practice Overview

As an Allscripts vendor partner since 2010, Leidos Health has delivered hundreds of successful Allscripts engagements. Working in collaboration with Allscripts, our versatile team leverages our application expertise, healthcare background, and proven experience to help tackle your current demands while also preparing your organization for future challenges. In addition to implementation and optimization assistance, our team works together with the Allscripts Professional Services team to support activation and training initiatives of any size.
