

FOR IMMEDIATE RELEASE

LEIDOS' DAVID DOBBS TO SPEAK AT CHIME13 FALL CIO FORUM

(Reston, Va.) October 3, 2013 – Leidos Holdings, Inc. (NYSE: LDOS) Health Analytics National Service Line Director, David Dobbs, is among 33 healthcare IT industry executives speaking at the CHIME13 Fall CIO Forum. The premier event for healthcare chief information officers and leaders of the vendor community, CHIME13 will take place at the Westin Kierland Resort in Scottsdale, Ariz., from October 8-11, 2013.

Dobbs will be a featured speaker on the *Critical Success Factors for Establishing an Analytics Department* along with Gary Barnes, CIO of Medical Center Health System, on October 9th, at 11:15 a.m. MST. Dobbs will speak about how Leidos helped Medical Center Health System (MCHS) support their data driven improvement initiatives by establishing an Analytics and Decision Support Department. Highlighted during the talk will be the critical success factors for implementing a high performing analytics department that supports enterprise-wide analytic needs.

Dobbs is an informatics and analytics professional with over 25 years of experience helping clients improve performance through better use of technology. He has led numerous data integration and data warehouse engagements including work with health systems, health information exchanges and national public health agencies. He has assisted clients across a variety of industries in assessments of and recommendations for their infrastructure, architecture, processes and analytic capabilities. Dobbs is certified as a Project Management Professional and in Six Sigma process improvement. He is a member of the HIMSS Clinical and Business Intelligence Committee, and Co-Chairs the Data and Analytics Task Force. He has been an active participation in HL7, the Health Information Technology Standards Panel (HITSP) and has provided expertise testimony before the HHS Federal Advisory Committee on Nationwide Medical Vocabulary needs.

College of Healthcare Information Management Executives (CHIME) President and CEO Russell P. Branzell FCHIME, CHCIO is delighted to have Barnes and Dobbs participating. “The CHIME organization is very fortunate to have healthcare’s most innovative and renowned CIOs and industry professionals from across the country converging in Scottsdale to educate and

reinvigorate their peers,” he said. “For the past 20 years, CHIME has worked diligently to advance the role of healthcare CIO and advocate the effective use of information technology to improve healthcare in the communities they serve. The success of the track session presentations to the Fall CIO Forum program has been overwhelming and allows key stakeholders of the healthcare IT industry to hear real-world instances and case studies on strategy and leadership, performance improvement, care transformation, and emerging issues.”

In addition to Dobbs’s session, there will be keynote presentations from industry thought-leaders and plenary presentations from government agency representatives. For a full list of speakers, panels and topics, visit www.cio-chime.org/chime13.

“I look forward to sharing my knowledge and expertise on data driven improvement and analytics, and interacting with the over 750 expected attendees,” said Mr. Dobbs.

Leidos formalized its separation from SAIC on September 27, 2013. Headquartered in Reston VA, Leidos has scale and leadership in three large addressable markets: national security, health and engineering. The Leidos name, coined from 'kaleidoscope,' evokes the new company’s ability to approach problems from multiple angles to deliver innovative solutions. Leidos Health provides healthcare information technology, electronic health records, advanced data analytics, and health and life science clinical solutions to federal and commercial clients.

CHIME is an executive organization dedicated to serving chief information officers and other senior healthcare IT leaders. With more than 1,400 CIO members and over 95 healthcare IT vendors and professional services firms, CHIME provides a highly interactive, trusted environment enabling senior professional and industry leaders to collaborate; exchange best practices; address professional development needs; and advocate the effective use of information management to improve the health and healthcare in the communities they serve.

About Leidos

Leidos is a science and technology solutions leader working to address some of the world’s toughest challenges in national security, health, and engineering. The Company’s 23,000 employees support vital missions for our government and the commercial sector, develop innovative solutions to drive better outcomes, and defend our Nation’s digital and physical infrastructure from ‘new world’ threats. Leidos is headquartered in Reston, Va. and had approximately \$6 billion in revenues for fiscal year 2013, on a pro forma basis, following the

spin-off of the company's technical, engineering and enterprise IT business on Sept. 27, 2013.
