

FOR IMMEDIATE RELEASE

## **LEIDOS HEALTH EXPERTS TO PRESENT AT COACH E-HEALTH 2014**

**Leidos Health's Sean Murphy and Dr. Diane Gutiw to Present at Canada's Premier eHealth Conference**

RESTON, Va. (May 29, 2014) – Leidos Health will be exhibiting (booth #311) and presenting at COACH's eHealth 2014 conference, a multi-faceted program covering leading practices and approaches to the delivery of e-Health. The conference will be held at the Vancouver Convention Centre in British Columbia, Canada, June 1-4.

Sean Murphy, Leidos Health vice president and HIPAA security officer, will present "*EHR implementation: Open Season for data breaches*" at the CHIEF (Canada's Health Informatics Executive Forum) breakfast on Tuesday, June 3 from 7:00 – 8:30 a.m. in the Vancouver Convention Centre Rooms 1-3. The presentation will address help healthcare organizations begin to see practical and feasible solutions to build in privacy and security into new initiatives—versus bolting them on after the fact.

Dr. Diane Gutiw of Leidos Health Analytics, will present a whitepaper on "*Health Analytics: lessons learned from early adopters*" on Tuesday, June 3 from 2:30 – 4:00 p.m. in Ballroom C. The presentation summarizes industry best practices to determine the best practice approach and tangible benefits of adopting a data-driven approach for medical system decision-making.

As a pre-session to eHealth 2014, CHIEF will host its Spring Symposium, located at the Fairmont Waterfront Vancouver. Murphy will present, "*Healthcare Cybersecurity: It's 3 a.m.: Do you know where your health data is?*" on Saturday, May 31 from 1:30 – 3:00 p.m. in the Nootka Room. In this interactive forum, Murphy will shed light on challenges facing healthcare providers to protect health information to avoid reputation and financial harm, and will also demonstrate the value of protecting health information from a patient care

perspective, and offer practical and actionable solutions that Canadian healthcare providers can put into place.

COACH, Canada's Health Informatics Association, provides access to a diverse community of accomplished, influential professionals who work passionately to make a difference in advancing healthcare through information technology. The field of health informatics (HI) is the intersection of clinical, IM/IT and management practices and is helping to modernize healthcare. For more information, visit [coachorg.com/](http://coachorg.com/).

CHIEF provides an effective access channel to thought leaders and expert-level knowledge, both nationally and internationally, facilitating the advancement of your career as a Canadian Health Informatics Leader. Its mission is to address critical business issues, build leadership capacity, forge relationships, enable peer dialogue, support succession and maximize professional development time for senior Health Informatics Executives in Canada. For more information about CHIEF, visit [www.coachorg.com/en/communities/Canadas-Health-Informatics-Executive-Forum.asp](http://www.coachorg.com/en/communities/Canadas-Health-Informatics-Executive-Forum.asp).

### **About the Speakers**

Sean P. Murphy, FACHE, CPHIMS, CISSP-ISSMP, CIPP/IT, is currently a vice president in Leidos Health Solutions Group and serves as the organization's health information privacy and security officer. He is a healthcare information security expert, with nearly twenty 20 years of experience in the field, serving at all levels of health care from the hospital to an international integrated delivery system. Before joining Leidos, he was a lieutenant colonel in the U.S. Air Force Medical Service Corps. He has served as CIO and CISO, but his proudest professional accomplishment was his service as a senior mentor to the Afghan National Police Surgeon General's Office in 2008–2009 in support of Operation Enduring Freedom. He has a master's degree in business administration (advanced IT concentration) from the University of South Florida, a master's degree in health services administration from Central Michigan University, and a bachelor's degree in human resource management from the University of Maryland. He's also an adjunct professor at Saint Leo University and is a contributing author for the Excelsior College National Cybersecurity Institute. He is a past chairman

of the HIMSS Privacy and Security Committee.

Dr. Diane Gutiw is a health informatics professional with Leidos Health and holds a Ph.D. in medical expert systems. Diane has led the architecture/design of jurisdictional EHR solutions, and is an interoperability, health data management and analytic strategy subject matter expert. Diane has over a decade experience with industry and academic research and the design of health analytics strategies for data-driven decision-making.
